EXPERIENCE

Thinker Tech

Jaipur

Web Developer Intern

Jul 2023 - Sep 2023

- Led the development and design of a full-featured Dating website which includes several components with high-quality images and animations, which gave me a solid understanding of JavaScript, React and HTML/CSS.
- Achieved pixel-perfect responsive user interface for consistent navigation and branding across different screen sizes with Integrated APIs and authentication for the login and registration processes. Gained seamless user authentication and navigation, ensuring a smooth and secure user experience throughout the website.
- Actively participated in team meetings and code reviews and suggested insights and solutions for technical troubleshooting and collaborated with cross-functional team and clients to deliver high-impact solutions.

PROJECTS

Car Rental Website

[GitHub Link](#)

- Designed and Developed a responsive front-end UI using React.js that delivers seamless user experience of multiple components like car details page, blogs, booking forms, car listings, user reviews sections and more.
- Implemented semantic HTML markup combined with CSS styling and Bootstrap framework to achieve precise designs and ensure consistency across different browsers and screen resolutions.
- Developed interactive features such as car browsing, filtering, and booking functionalities using JavaScript to provide users with a hassle-free and intuitive rental experience.

Portfolio

[Live Link](#)

- Designed a visually engaging portfolio website to showcase my professional accomplishments, skills, and projects along with my educational and professional background. Developed this website to feature a clean and intuitive interface by using HTML and CSS which allows visitors to explore my portfolio with ease and go through my educational and professional details in visually appealing way.
